OBJECTIVE

Looking for development opportunities in Bellingham, WA or remotely in the US. My goal is to become a part of a collaborative development team that works hard and has fun doing it.

🛠 SKILLS

React - JavaScript - Python - NodeJS - GatsbyJS - MERN - Django - HTML5 - CSS3 - Sass - Linux - Bash PostgresSQL - Git - Pipenv - React Router - FlexBox & Grid - MVC - REST APIs - Unit Tests - Static Site Generation Agile - Single - Page Apps - Bootstrap - MaterialUI - Contentful - Docker

💼 EXPERIENCE

Mockup Mark | Software Engineer | **San Francisco, CA** | **07/2020 - Present**
- Ramped up production code for recent feature on Product Hunt
- Built custom React components and ecommerce landing pages using React JSX, Sass, Bootstrap
- Refactored legacy React code from class components to functional hook components
- Worked with Product Manager to translate user feedback and team ideas to mockups and wireframes
- Participates in daily standups and weekly sprint plannings

Redbubble, Inc. | Front End Developer & Partner Manager | **San Francisco, CA** | **12/2017 - 7/2020**
- Developed a learning portal using JavaScript, React, HTML, and CSS for Fan Art program
- Built 65+ landing pages for Rick and Morty, Steven Universe, Adventure Time, Star Trek, KISS, Borderlands
- Wrote script automations in Python to scale image downloading and processing
- Collaborated with Product Management, Engineering, Sales, and Global Partners to develop end-to-end products
- Drove implementation and testing of Rights Holder Review Portal, Agreements Platform, and in-house CMS
- Developed relationships with key partners at Cartoon Network, Sony, CBS, ABC, and many others

Redbubble, Inc. | Content & IP Operations Supervisor | **San Francisco, CA** | **03/2013 - 12/2017**
- Maintained reporting needs of business with data analyst, running and building custom SQL scripts
- Led takedown notice execution, overseeing timely processing of DMCA Notice and Takedown Reports
- Established key measures of success and processes for team's daily workflow
- Developed guidelines & presentations to further company's understanding of IP

⋯ PERSONAL PROJECTS

WatchlistDB (React, MERN stack) | Group Meet (Django, Python) | Movie shuffler (Vanilla JS, MaterialCSS)

🎓 EDUCATION

Fort Hays State University - Information Networking and Telecommunications / Certificate of Internetworking Cisco Networking Academy Graduate
